

# LEGEND + R200

## CONTINUOUS TEMPERING MACHINE COATING MACHINE MOD. LEGEND

Three section coating belt installed on a tilting trolley. Dripping of chocolate aided by mechanical vibration. Air blower with adjustable air flow to control the dripping of the chocolate. Electronically controlled coating speed. Partial coating of the product base (optional extra). The support paper is set in motion or halted via mechanical controls.

Greaseproof paper (2 rolls)

Can be used with Legend, Plus EX, Futura EX.

## Technical data

Electrical specification: 220 V monofase - 50-60 Hz  
Required power: 0,5 Kw  
Dimensions open: h. 1200, w. 1800, d. 600 mm.  
Dimensions closed: h. 1800, w. 600, d. 600 mm.
