

TUNNEL 800/1200

COATING LINE

- ▶ Designed for large workshops and small/medium industries.
- ▶ This machine can be used simultaneously for coatings and mouldings.
- ▶ Can be connected to a detacher.

Designed to coat and cool coated and moulded products using a special air diffuser positioned over the whole length of the cold chamber. The production speed ranges from 30 to 200 cm/min. The coating section can be easily removed and washed. The TUNNEL 800/1200 has a completely integrated coating section which can be easily removed and washed. The machine was designed to allow working with more than one tempering machine, which can be swapped over upon changing the colour of the coating.
